

These Vises are specially designed and manufactured to ensure perfect alignment and smooth movement.

Body : Shock resisting cast iron, free from sand holes, pits, blow holes, scabs and other imperfections. Unbreakable Malleable Steel

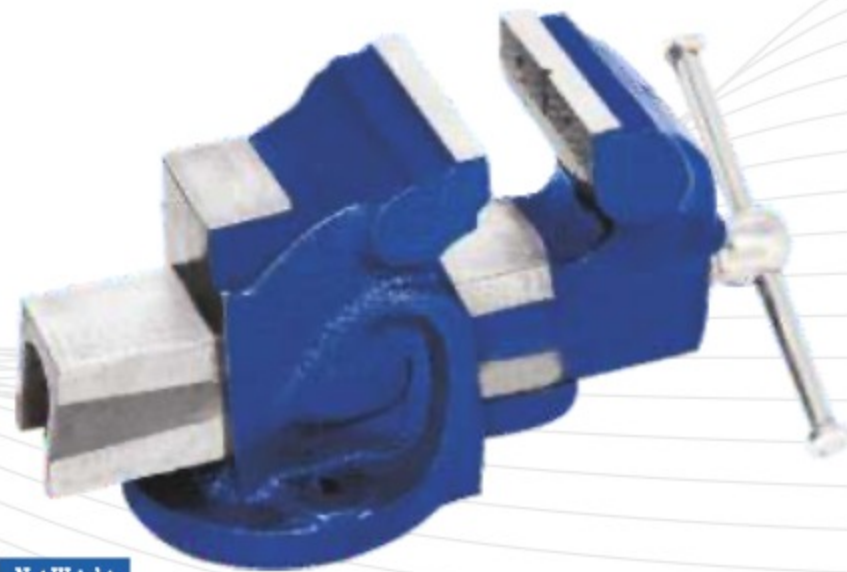

Spindle nut : Nut for extra tuff grip.

Jaws : Made of special carbon Steel properly heat treated grinded and serrated to ensure a fast non slip. Horizontal and vertically 'V' is provided for round section work.

Spindle Screw: Is fine pitched made of selected steel to match with nut for long and durable life.

Slide Pins : Two hardened pins are provided instead of spring for the smooth running of the Vise.

Swivel Base : Specially designed having three hole for mounting. Vise rotates through 360° on base and can be locked positively at any position.
