

# HORIZONTAL & VERTICAL TWO DIRECTION

# RAPID INDEXER

Useful for 2 Direction horizontal & Vertical milling and drilling operations. It has a 3 Jaw chuck fitted on the head for big range clamping. The indexer has a simple rapid operation with Dividual number 24 - notch (15° each) and a Table scale of 1° for angular indexing.

1. 3 Jaw chuck fitted Head with big range clamping capacity.
2. Dividual number 24-notch (15° each)
3. Table scale 1°, for angular indexing
4. Horizontal / Vertical & 2 direction
5. Suit for milling & drilling machine
