

▶ Diamond multi-grit dresser with tips of natural diamonds

Design:

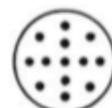

- wearing a number of finely crystallised, sharp crude natural diamonds
- arranged either in one or in several layers
- shank size MK0, MK1

Use:

- for dressing, profiling and sharpening of EK (fused alumina) and SC grinding discs
- diamond dresser should be clamped vibration-free and as short as possible
- suited for coarse and robust dressing

Note:

Further sizes available on request
