8814 NC

- **Mitlaufende Körnerspitze für NC Drehmaschinen**
- NC revolving centres with extended point for high speeds

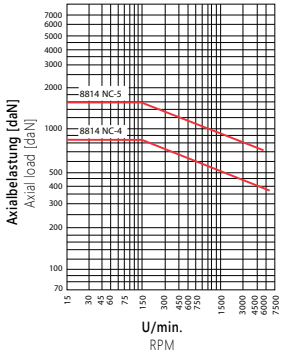

Radialbelastung
Lebensdauer des Wälzlagers: 2000 Std.
Radial load
Service life of roller bearing: 2000 h

Axialbelastung
Lebensdauer des Wälzlagers: 2000 Std.
Axial load
Service life of roller bearing: 2000 h
