

DOUBLE SWITCH WELDING MAGNET

Application: Ideal for ferrous metal holding for welding jobs in hardware processing and construction industry.

Features:

1. Magnetic force is controlled by two separate switches, easy to fix and safe to use.
2. Made by ferrite magnet with strong suction force.
3. Thickened double layers galvanized sheet, surface flat and no deform, making it more strong.

Model	Dimension (mm)		(kg)	
	L×W×T	Angles	Net Weight	Pull Off Force
FM5-S	135x115x18	90°	0.68	25
FM5-M	165x140x18	90°	0.98	50
