

LT-6

## ● Rattling hand pump LT model

The discharged amount and pressure are higher than those of LT-4 and the operation method is just the same.

| ORDER NO.  | LT-6  | LT-18   | LT-18A |
|------------|-------|---------|--------|
| Size (AxB) | 85x85 | 100x110 | 98x107 |
| Weight     | 1.2kg | 1.6kg   | 1.6kg  |

| ORDER NO. | Discharged amount (c.c/st) | Max. discharged pressure (kg/cm <sup>2</sup> ) | capacity (c.c) | Efficient capacity (c.c) | CODE NO. |
|-----------|----------------------------|------------------------------------------------|----------------|--------------------------|----------|
| LT-6      | 6                          | 15                                             | 350            | 250                      | 1026-061 |
| LT-18     | 8                          | 15                                             | 600            | 400                      | 1026-062 |
| LT-18A    | 8                          | 15                                             | 650            | 450                      | 1026-063 |
