MAGNETIC WELDING GROUND CLAMP

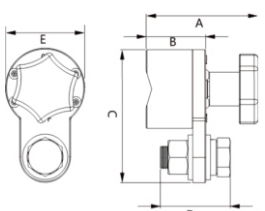

MWGC1 磁性焊接接地器

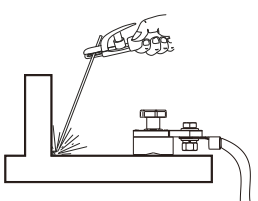

Application: This Welding Ground Clamp is designed to hold a ground cable to any ferro -magnetic surface. Using patented technology, this device has strong holding power as well as a great amount of shear force holding strength to reduce sideways movement.

Features: 1. Applicable to clamp both flat and round workpieces.
2. Simple operation. On/Off controlled by the switch.
3. Time and cost saving.

用途：此款焊接接地器用于固定接地电缆，可用在任何铁磁性材料表面。这个产品有很强大的拉脱力，同时也有很大的侧吸持力可以减少侧面的移动。

特点：1.适用于平、圆工件的夹紧。
2.操作简单，开关控制开/关。
3.开/关控制，使金属粉尘脱落，不用清洗，使用简单方便。

型号 Model	规格Dimension(mm) A	B	C	D	E	电流(A) Current	净重(kg) Net Weight	拉脱力(kg) Pull Off Force
