

▶ Drilling and cutting oil foam

caramba

Design:

- adhesion-stable foam for drilling, cutting and milling
- mixable with all water-based cooling lubricants
- free from volatile chlorinated hydrocarbons as well as mineral oil and sulphur
- gentle to the tooling
- washable with water
- for cooling and lubricating at drilling, cutting and milling
- for alloyed and unalloyed steel, cast, chrome-nickel compounds, copper and their alloys
- particularly environmentally friendly
